## Bursa ends firmer on persistent buying interest in blue chips

KUALA LUMPUR: Bursa Malaysia ended firmer Monday on persistent buying interest in blue chips as investors shrugged off the tensions between Russia and Ukraine, dealers said.

A dealer said investors had started to buy heavyweights following the announcement of positive corporate earnings recently.

At 5 pm, the FTSE Bursa Malaysia KLCI (FBM KLCI) advanced 1.04 per cent or 16.56 points to 1,608.28 from 1,591.72 at Friday's close.

The barometer index, which opened 4.02 points higher at 1,595.74, its intraday low, hit an intraday high of 1,613.49 during the early session.

However, the overall market breadth was negative with losers surpassing gainers 635 to 413, while 368 counters were unchanged, 862 untraded, and 51 others suspended.

Total turnover rose marginally to 3.47 billion units worth RM3.97 billion against 3.24 billion units worth RM2.92 billion previously.

Rakuten Trade Sdn Bhd vice-president of equity research Thong Pak Leng said the news that Russia is prepared to send a delegation to Belarusian capital Minsk for talks with Ukraine had also provided a filip to the positive sentiment.

On the domestic front, he said the FBM KLCI had broken the 1,600 technical resistance again and it might head towards the next resistance at around 1,618-1,620 level.

"We remain cautiously optimistic given the improvement in the local market sentiment and foreign support but investors should stay alert on the increasing market volatility and external uncertainties," he told Bernama.

As such, he said the FBM KLCI was expected to move range-bound and hover at the 1,600-1,620 level for the week.

"Technically, the immediate resistance is unchanged at 1,618, while support is at 1,570," he said.
